

Blackout is a special kind of media for solvent based digital printing. The black inlay and unique surface treatment provides 100% opacity to allow printing on both sides with no show through of pictures. It is mainly used for outdoor advertisements but is used indoors as well

PROPERTIES	TYPICAL VALUES
Material	Polyester fabric lined with PVC films
Tear Strength (n/s cm)	1400 / 1400
Tensile Strength (n/s cm)	250 / 250
Shelf life	2 years from factory shipment ¹
Printability	Solvent, mild-solvent and pigment
Type of coating	PVC
Peeling Strength (n/s cm)	More than 30
Temperature Range	-20° C – 65° C / -4° F – 149° F
Durability	3 years
Width	60" (1.52 m) 72" (1.82 m)

AREAS OF USE

- Use to advertise on billboards
- Advertising and display graphics
- Great for the outdoors
- Optimized for digital solvent based printers
